## Spectrum Policy: From the Foundations to the Future

Mobile wireless services and devices will play an increasingly critical role in our country's 21<sup>st</sup> century economy. This half-day symposium will provide a discussion of the economics, business and public policy implications of spectrum allocation and use. The symposium will be readily accessible to policymakers, legal scholars, members of the business community and press.

### Panel Discussions:

- **Technical Tutorial on Spectrum**
- **Economic Principles for Sound Spectrum Policy: Why Are Spectrum Allocation and Use Decisions Important to the U.S. Economy?**
- **Emerging Policy Issues**

### Panelists to Include:

- **Gerry Faulhaber** – Professor of Economics, University of Pennsylvania
- **Dale Hatfield** – Independent Consultant and Adjunct Professor, Interdisciplinary Telecommunications Program, the University of Colorado at Boulder
- **George Ou** – Technology Consultant
- **Greg Rosston** – Deputy Director, The Stanford Institute for Economic Policy Research
- **Marius Schwartz** – Professor of Economics, Georgetown University
- **Lawrence White** – Professor of Economics, New York University
- More panelists to be announced soon

*This program is sponsored by the Center for Business and Public Policy, a non-partisan research center housed at Georgetown University's McDonough School of Business. The Center was created in 2001 to encourage dialogue and to document and disseminate knowledge on a range of issues in the public interest. Our mission is to engage scholars, business people and policymakers in relevant inquiries and dialogue to impact key business, economic and ethical public policy issues confronting American and international businesses today. The McDonough School has an international focus, a rigorous academic environment, and a diverse student body that make the Georgetown experience unique. Within that framework, the center stands as a creative and intellectual marketplace for thoughtful exploration and careful testing of ideas on real world problems.
